Tips

- Try and underpack for the first month or two, this will allow you to learn what you really need
- I ended up with more stuff at the end of the year than I came with
- Add neat decor for certain holidays to put you in the mood
- If you have a roommate work with them to divide up the list, it will save you money and space
- Ikea bags make packing a lot easier than totes. Totes are hard to store when empty, but ikea bags can be folded up.
- If you forget something, amazon is a life saver, so don't panic!
